How It Works

Choose from the shapes and colors available in the **Agate, Mizumi, Shibui, Tozen and Tozen Glow** collections to create a unique glass blend. Mix finishes for even more variation.

1. Choose the tile size or pattern for your blend.
2. Choose the colors and finishes from a single series or any combination of Agate, Mizumi, Shibui, Tozen and Tozen Glow* - and the percentage of each component.
3. Request a custom swatch card or grouted sample board from your local showroom to make sure the blend works for your installation.
