Marbleized: [märbel-ízd]

verb, past tense

origin: Greek

1. To give a marble-like variegated finish to an object or material

From art museums and estates to cafes and cottages, marble transitions beautifully from the elegant to the everyday. Our Marbleized collection reinterprets the timeless appeal of natural stone in colored glass. Artisans handcraft the tiles by stretching and pulling together layers of transparent and opaque glass to create complex variations in shade, tone and texture. The old world rustic edge will add richness to any setting.

70% post-consumer recycled glass content
