

Namibia

The South Atlantic coast of Africa is considered some of the most stunning desert terrain in the world. A trip to this surreal destination offers vistas of rippling dunes, flat clay pans, and rocky outcrops, not to mention endless sky. This incredible landscape brings inspiration for the Namibia series, a three-dimensional ceramic tile collection which incorporates a special hand-sculpting technique to create tiles that are truly one-of-a-kind. Every tile is created by hand and no two tiles are the same. The undulating patterns come in four formats that engage a sense of adventure and rejuvenation — like the discovery of a hidden oasis.

Shade Variation			NOTES		
V1 - V3 Moderate Variation			<p>Since variations are common in artistic ceramic tile, we recommend final selection be made from an actual tile mock-up. To achieve optimal results in shading, layout and design, tile should be randomly selected from multiple boxes during installation. We recommend a minimum of 10% overage on all orders. Installation constitutes acceptance. We advise retaining control samples to aid in color matching if additional material is required (match not guaranteed).</p>		
			MAINTENANCE		
			<p>A routine cleaning of tiles can be done with light duty, diluted close to neutral pH cleaner.</p>		

* Acceptable for all walls and sporadic exposure near open flame or heat source, including fireplace wall/cooktop surround. Not recommended for placement inside a firebox.

** **Metallic Glazes** Dark Silver and Sunset Bronze are not recommended for installation in pools, spas, water features or steam showers. All other colors are acceptable.

▲ Dunes 3pc Pattern and Square Ripples were NOT designed to be grouted. We recommend installing without grout and tinting setting mortar to match material color.

■ Round Ripples in White Sand ONLY, no other patterns or colors are acceptable.
