
To our loyal customers:

After years of success, we are excited to announce that we have partnered with a team of investors with extensive tile industry experience who will help us accelerate our growth and expand our reach from our California headquarters.

A new partnership with Saugatuck Capital Company, based in Shelton, Conn., will allow us to develop new product offerings, create more industry-leading designs, enhance customer service, and deepen stocking levels.

Founded in 1982, Saugatuck is a long-established private investment firm committed to growth equity investments. The firm invests in service-intensive businesses with proven track records.

Since Lunada Bay Tile's humble beginnings in 2000, I have always dreamed of providing showrooms, designers, and homeowners with the most beautiful and inspiring tile possible. This investment will help us thoughtfully expand our reach to more people, while remaining true to our core mission, one tile at a time.

Carl
