

Just as the sun glitters across moving water, light glimmers over softly textured glass. Luce, a collection of contemporary hand crafted glass mosaics, uses reflection and refraction of light to create shifts in color and illumination. As light bounces off the tile surface, these semi-opaque mosaics absorb and reflect nuances of the colors around them.

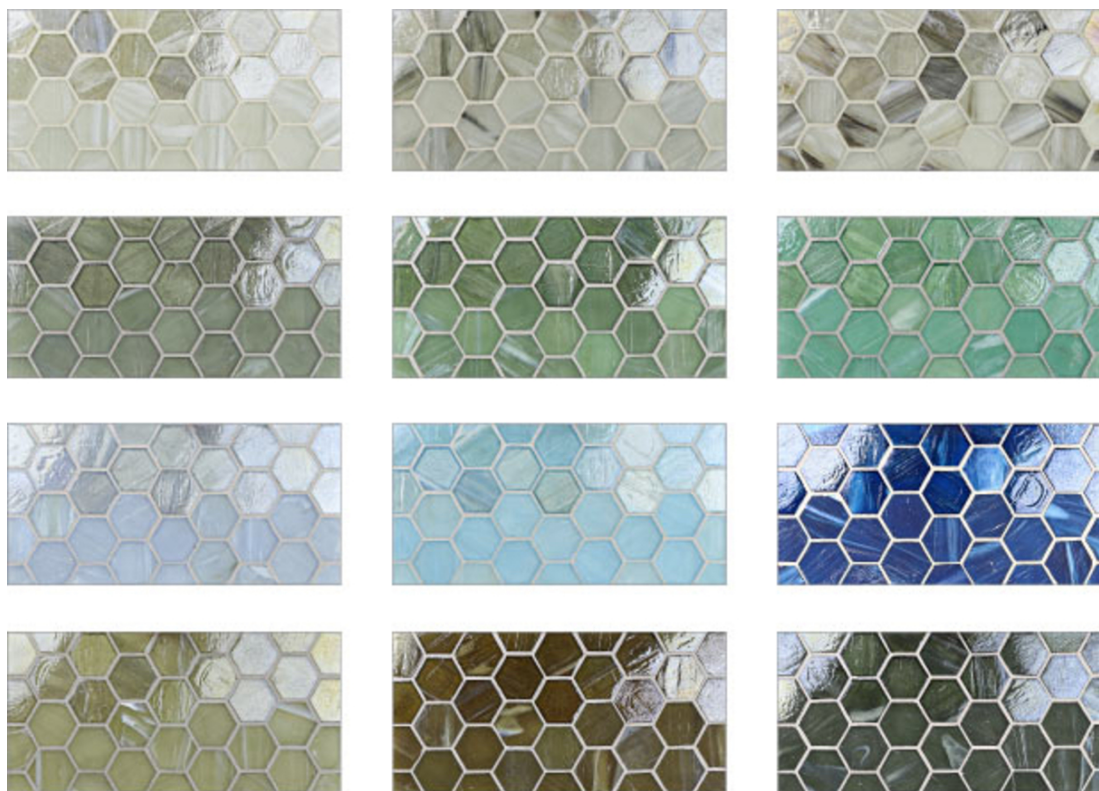

PATTERNS

Luce breaks barriers in glass mosaic design with four distinctive **patterns**: Feather, 2-inch Hex, Fin and Clipper.

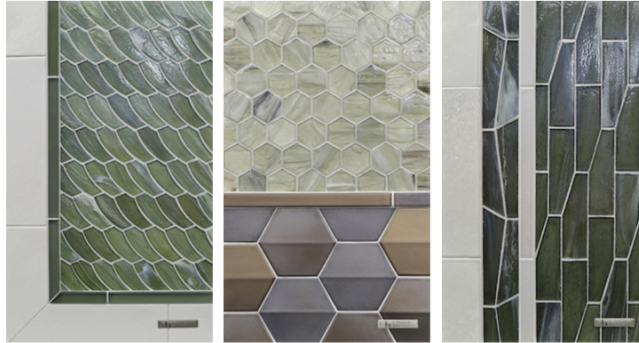

COLORS

The 12 subtle pastel **hues** in Pearl and Silk finishes coordinate with today's movement in color.
