STONE & PEWTER ACCENTS
LUNADA BAY TILE  Malaga Cove Tile

Introducing Rio

Nothing surpasses the sidewalks of Copacabana, where stone mosaics form larger-than-life abstract paintings on which locals and tourists stroll and play.

Rio, a new tile pattern by Stone & Pewter Accents, reinterprets the artful sidewalks along Rio de Janeiro's most famous beach. Alluring curves and undulating movement captivate the eye, inviting you to pause and soak in the beauty and intricacy of the design.

Explore the Design Possibilities

Rio is created using 1 x 1 and 1/2 x 1-inch tile sizes and is available as a standard offering in our Agate, Mizumi, Shibui and Tozen glass lines using a single color from any one of these collections.

We can also create custom looks by blending combinations of colors and finishes from our Agate, Mizumi, Shibui or Tozen glass tiles into designs created by you. From subtle to seductive, the materials, colors and finishes you choose will determine the personality of your installation.

Robust: Strong, contrasting color combinations will place the emphasis on Rio's explicit curves, creating a wave-like effect along floors and walls.

Subtle: Monochromatic palettes will wash the surface in gentle movement, placing the emphasis on the material. Alternating silk and pearl finishes play with light reflectivity, adding another dimension to the design.

Wrap the Room: Rio installs from floor to walls in one flowing installation, reducing the need for trim and transition pieces in bathroom and shower projects.
